This Supplement has been prepared in a format with pagination for insertion in the DFFR directly following Amendment 1 (Reference 3), superseding Amendment 2 (Reference 4) entirely. To facilitate identification of the changes comprising Supplement 1, a vertical line and the abbreviation "S1" have been added to the margin adjacent to each Supplement 1 item. Those items without marginal notations comprise the original Amendment 2 (Reference 4). Please replace DFFR pages A-29 through A-61 (Amendment 2) with the enclosed Supplement 1, and discard the replaced pages.

The planned supplements and other changes to this Amendment will be effected through similar page substitutions or expansion to ensure continuity both in subject matter and chronology.

Any questions regarding this Supplement should be directed to L. H. Frauenholz, the Mark II Containment Licensing Engineer, telephone number (408) 925-2623.

Sincerely,
