

UNITED STATES NUCLEAR REGULATORY COMMISSION

REGION IV 611 RYAN PLAZA DRIVE, SUITE 400 ARLINGTON, TEXAS 76011-4005

July 6, 2006

SUBJECT: PUBLIC MEETING WITH ENTERGY OPERATIONS, INC.

FACILITY: River Bend Station

DOCKET: 50-458

DATE & TIME: Thursday, July 20, 2006

12:30 - 4 p.m. (CDT)

LOCATION: U.S. Nuclear Regulatory Commission, Region IV

Training Conference Room 611 Ryan Plaza Drive, Suite 400 Arlington, TX 76011-4005

PURPOSE: This meeting is a Regulatory Conference, the purpose of which is to

provide the licensee an opportunity to present to the NRC their perspective on the facts and the process used by the NRC to arrive at the preliminary White finding described in NRC Inspection Report 05000458/2006011 (ML061700510). The apparent violation of NRC requirements involved a failure to establish adequate preplanned measures to ensure accurate and timely emergency classification using seismic activity emergency actions levels during periods when seismic monitoring instrumentation was out of

service at various times in 2004 and 2005.

CATEGORY 1: This is a Category 1 Meeting. The public is invited to observe this meeting

and will have one or more opportunities to communicate with the NRC after

the business portion, but before the meeting is adjourned.

The NRC provides reasonable accommodation to individuals with

disabilities where appropriate. If you need a reasonable accommodation to participate in this meeting, or need this meeting notice or the transcript or other information from the meeting in another format (e.g., braille, large

print), please notify the NRC's meeting contact listed below.

Determinations on requests for reasonable accommodation will be made

on a case-by-case basis.

A telecommunications bridge will be available for the public. The phone number is (800) 952-9677. The callers will then request to be transferred

to the bridge for the River Bend Station public meeting.
