SUBJECT: PHONE CALL WITH INDIAN POINT 2 PETITIONER MR. DAVID
LOCHBAUM ON MARCH 17, 2000 (G20000133)

On March 17, 2000, I spoke by telephone with Mr. David Lochbaum, one of four petitioners of a 10 CFR 2.206 Petition requesting that the Nuclear Regulatory Commission order that Indian Point 2 (IP2) remain shutdown until the plant's four steam generators are replaced and two other issues are resolved. The purpose of the call was to determine a mutually agreeable date for a Petitioner-requested public meeting, the purpose of which was to provide an opportunity for the Petitioners to provide additional information in support of their Petition.

Mr. Lochbaum stated that he had discussed the meeting schedule with the other three Petitioners, and that their preferred date for the meeting was April 7, 2000. They could meet as early as April 6, 2000, but that date would create some inconvenience. I stated that there was no conflict on my calendar, although we would have preferred to have held the meeting sooner. I stated that if my management had no conflicts with that date, I would schedule the meeting for the afternoon of April 7. We discussed the length of the meeting, and agreed that 2 hours should be sufficient, with 1 hour allotted to the Petitioners and 1 hour allotted to the licensee. Mr. Lochbaum indicated that he tentatively expected seven or eight attendees at the meeting.

We also discussed other administrative items related to the Petition. I stated that we would provide a package of publically available documents that had been issued since February 15, 2000, relating to the IP2 event. Mr. Lochbaum stated that if I sent them to him, he would distribute the documents to the other Petitioners. I asked for the addresses and phone numbers of the other Petitioners, which he agreed to provide. Finally, I asked whether the Petitioners desired that each be added to the IP2 service list, or only Mr. Lochbaum. Mr. Lochbaum stated that it would be best that each Petitioner be on the service list, and I agreed to do so.
