Ms. Marita Peine  
General Services Administration  
Mail Stop FTS/6TS-F  
1500 E. Bannister Road  
Kansas City, MO 64131

SUBJECT: GSA CONTRACT NUMBER GS-35F-4813G  
TASK ORDER TO699BN2991  
ACT NUMBER A84945673  
LABAT-ANDERSON, INC.

Dear Ms. Peine:

This is to notify you that all the deliverables for the above noted GSA task order to provide support services to the U.S. Nuclear Regulatory Commission for the Licensing Support Network have been delivered and accepted by NRC. Having received these final deliveries, this task order may proceed through the closeout process. It is our understanding that there is a small amount of unexpended funds being reported by the contractor; however, we recognize that there may yet be some trailing costs identified during subsequent reconciliations. I will continue to be the point of contact should any further action be required during the project closeout.

The contractor, Labat-Anderson, Inc., provided timely service and delivered high quality products throughout the duration of this contract. Additionally, they assigned very knowledgeable and professional staff to the accomplishment of their tasks. NRC is very satisfied with the contractor's overall performance.

Finally, I would like to acknowledge the prompt, professional service and continued support provided by you and Mr. Tyrell during this effort. Your efforts greatly contributed to a very successful contracting effort and smooth project administration on our part.

Sincerely,

Daniel J. Graser  
Licensing Support Network Administrator  
Atomic Safety and Licensing Board Panel
