Dear Mr. Costello:

As discussed on July 24, 1996, Safety Light Corp. (SLC) requests an amendment to license #37-00030-08 to allow SLC to take prototype products to customer locations for demonstration purposes. These products, if approved by the customer, would then undergo the normal licensing procedures prior to distribution.

I am enclosing a check for \$580 which is the amendment fee for a type 3B license which SLC's -08 license is.

The above products would at all times be under the supervision of one of the persons listed on SLC's -08 license.

If you need any further information, please do not hesitate to call me.

Sincerely,
SAFETY LIGHT CORPORATION

Larry Harmon
Plant Manager
