MEMORANDUM AND ORDER  
(Making Publicly Available  
Decision Ruling on Motions  
Regarding Contention Utah H)

By memorandum and order issued November 2, 1999, the Licensing Board ruled on the admissibility of summary disposition and discovery motions regarding contention Utah H, Inadequate Thermal Design. See LBP-99-42, 50 NRC \_\_\_\_ (Nov. 2, 1999). In a separate memorandum issued that date, the Board advised all the parties to this proceeding that it had crafted its November 2 decision to avoid using 10 C.F.R. § 2.790 "proprietary information" so the issuance could be publicly released, but nonetheless was treating its ruling as confidential pending receipt of the views of the parties involved with the motions on whether the decision could be publicly released. In a November 10, 1999 submission, intervenor State of Utah (State), applicant Private Fuels

Storage, L.L.C., (PFS) and the NRC staff advised the Board they have not identified any proprietary information in the November 2, 1999 decision and so have no objection to making that issuance publicly available.

Accordingly, included as Attachment A to this memorandum and order is a copy of LBP-99-42 as issued, which shall be made part of the public record of this proceeding. The published version of this decision will omit the designation "HANDLE AS PROPRIETARY INFORMATION PENDING REVIEW" that is found on the bottom of each page.

It is so ORDERED.
