

**Global Nuclear Fuel**

A Joint Venture of GE, Toshiba, & Hitachi

July 14, 2000

FLN-2000-009

Document Control Desk  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Attention: R. M. Pulsifer

Subject: **Revision 7 to Non-Proprietary version of *GE Fuel Bundle Designs*,  
NEDE-31152**

Reference: 1. *GE Fuel Bundle Designs (NEDE-31152P)*, Revision 7, June 2000.

Revision 7 to the proprietary version of *GE Fuel Bundle Designs*, NEDE-31152P (Reference 1) was submitted June 9, 2000. Attached please find the non-proprietary version of that same document for your information. This non-proprietary version is being submitted in electronic format (PDF file) on a CD-ROM, the same as was done for the proprietary version.

Supplement 1 to NEDE-31152P was also submitted June 9, 2000, but will not have a non-proprietary version submitted because all of the document except the title page information is proprietary.

As was the case for the proprietary version of the report, we hope that you will find this electronic *GE Fuel Bundle Designs* report to be the most appropriate way to handle this reference information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Glen A. Watford', with a stylized flourish at the end.

Glen A. Watford, Manager  
Nuclear Fuel Engineering
