Subject: Maine Yankee Comments on Notice of Intent to Prepare a Draft Supplement to the Generic Environmental Impact Statement on Decommissioning of Nuclear Facilities

The purpose of this letter is to provide Maine Yankee's comments on NRC's Notice of Intent to Prepare a Draft Supplement to the Generic Environmental Impact Statement on Decommissioning of Nuclear Facilities. Maine Yankee supports the comments being forwarded by the Nuclear Energy Institute (NEI).

We believe that it may be helpful to supplement this GEIS, but we would strongly oppose any delay such an initiative might have on current plant specific license termination activities. We believe the existing environmental impact statements sufficiently cover the environmental concerns related to decommissioning activities that are currently ongoing.

We appreciate this opportunity to comment on the draft standard review plan. If you have any questions, please contact us.

Very truly yours,

George A. Zinke
Director, Nuclear Safety & Regulatory Affairs
