

July 25, 2000

Mr. J. A. Scalice  
Chief Nuclear Officer and  
Executive Vice President  
Tennessee Valley Authority  
6A Lookout Place  
1101 Market Street  
Chattanooga, TN 37402-2801

SUBJECT: SEQUOYAH NUCLEAR PLANT, UNITS 1 AND 2 - WITHDRAWAL OF  
AMENDMENT REQUEST (TAC NOS. MA6065 AND MA6066) (TS 99-05)

Dear Mr. Scalice:

By letter dated June 24, 1999, you applied for an amendment to the Sequoyah Nuclear Plant, Units 1 and 2, Operating Licenses Nos. DPR-77 and DPR-79. The proposed change would have modified the facility technical specifications pertaining to surveillance requirements for the ice weight in the ice condenser baskets. Subsequently, by letter dated June 9, 2000, you withdrew the amendment request.

Prior to receipt of the request withdrawing the amendment application, the staff had identified a number of deficiencies in the June 1999 request, as documented in our letter to you dated December 9, 1999. In your withdrawal letter, you state that the Ice Condenser Utility Group reevaluated the original request and determined that the initial approach taken may not necessarily provide the desired improvements.

The Commission has filed the enclosed Notice of Withdrawal of Application for Amendments to Facility Operating Licenses with the Office of the Federal Register for publication.

Sincerely,

**/RA/**

UNITED STATES NUCLEAR REGULATORY COMMISSIONTENNESSEE VALLEY AUTHORITYDOCKET NOS. 50-327 AND 50-328NOTICE OF WITHDRAWAL OF APPLICATION FOR  
AMENDMENTS TO FACILITY OPERATING LICENSES

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (TVA, the licensee) to withdraw its June 24, 1999, application for proposed amendments to Facility Operating Licenses Nos. DPR-77 and DPR-79 for the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee.

The proposed amendments would have revised the facility technical specifications (TS) pertaining to surveillance requirements for the ice weight in the ice condenser baskets.

The Commission had previously issued a Notice of Consideration of Issuance of Amendments published in the FEDERAL REGISTER on August 11, 1999 (64 FR 43781). The Commission subsequently send a letter to TVA, dated December 9, 1999, noting that the staff had identified a number of deficiencies during the course of their review. Although these deficiencies did not dispute the no significant hazards consideration determination published in the FEDERAL REGISTER, they did fall short of the improvements to and clarifications of the present TS envisioned by the Commission staff. By letter dated June 9, 2000, TVA withdrew the proposed change on the basis that the Ice Condenser Utility Group reevaluated the original request and determined that the initial approach taken may not necessarily provide the desired improvements.

For further details with respect to this action, see the application for amendments dated June 24, 1999, the Commission's letter dated December 9, 1999, and the licensee's letter dated June 9, 2000, which withdrew the application for license amendments. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 25th day of July 2000.
