DOCKET NUMBER
PETITION RULE PRM 50-71
(65FR34599)

Dear Ms. Vietti-Cook:

NUCLEAR REGULATORY COMMISSION (NRC) - PETITION FOR RULEMAKING BY NUCLEAR ENERGY INSTITUTE (NEI) TO AMEND NRC REGULATIONS TO ALLOW USE OF ZIRCONIUM-BASED CLADDING MATERIALS OTHER THAN ZIRCALOY OR ZIRLO (Volume 65 Federal Register 34599)

TVA offers the following comments relative to a *Federal Register* notice that solicited public comments on the NEI petition for rulemaking to revise 10 CFR 50, §§44 and 46, to allow use of zirconium-based cladding materials other than zircaloy or ZIRLO in commercial nuclear power plants.

TVA supports the technical bases and conclusions drawn in the proposed rule change. We recommend that the NRC revise §§50.44 and 46 as described in the petition. In addition, we endorse comments made by NEI on this petition. If you have any questions, please contact Rob Brown at (423) 751-7228.

Sincerely,

Mark J. Burzynski
Manager
