Good afternoon, John!

Attached is the summary of personal markers and gun and bow sights. It seems that the personal markers are for military and law enforcement only. The original application stated that the civilians (hunters, climbers, and hikers) can use personal markers, however, the response to deficiency letter requesting info on frivolous use did not mention the civilian use. The certificate does not list any restrictions.

For the gun and bow sights, the original application did not list use on bow sights (I can not find any other information in the background file), however, certificate lists "gun and bow" sights.

If you have any questions, please let me know.

Thank you very much and have a nice day.

Seung
