Subject: Deferral of Triennial Fire Protection Inspection

During the June 27, 2000 management meeting with the NRC, Commonwealth Edison (ComEd) Company discussed the scheduling of the Triennial Fire Protection inspection. Based on the status of our Fire Protection Improvement Plan for Dresden Nuclear Power Station (DNPS), Units 2 and 3, the NRC agreed that deferral of the inspection was warranted. Based on these discussions, ComEd is requesting deferral of the Triennial Fire Protection inspection for DNPS, until late in the first quarter of 2001.
