Mr. Roland G. Fletcher, Manager  
Radiological Health Program  
Air and Radiation Management Administration  
Maryland Department of the Environment  
2500 Broening Highway  
Baltimore, MD 21224

Dear Mr. Fletcher:

We have reviewed the final Maryland regulations for Supplements 5 (memorandum July 1, 1999) and 6 (memorandum April 13, 2000) and change in definition for person in the Code of Maryland Regulation 26.15.01.02, Radioactive Hazardous Substance Management which became effective June 1, 1999, February 7, 2000 and June 28, 1999, respectively. We received these regulations on June 29, 2000. The final regulations are in response to the nine amendments identified in the enclosed Regulation Assessment Tracking System (RATS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 19, 20, 30, 34, 35, 61 and 71.

As a result of the NRC review, we have determined those Maryland regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs Procedure SA-200.

We have summarized on the RATS Data Sheet our knowledge of the status of other Maryland regulations. Please let us know if you note any inaccuracies or have comments on the information contained in the RATS Data Sheet.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Duncan White at (610) 337-5042 or [adw@nrc.gov](mailto:adw@nrc.gov).

Sincerely,
