SUBJECT: FORMER AEC LICENSE 35-11301-01 BURIAL SITE

Dear Mr. Long:

On August 25, 1997, you provided us with a copy of a report entitled, "Radioactive Materials Screening Analysis for Site 3." This report was prepared to demonstrate regulatory compliance for decommissioning a former burial site at the Federal Aviation Administration's (FAA) Mike Monroney Aeronautical Center.

After review by our contractor, Sandia National Laboratories, we have concluded that no further remediation is required and that the site may be released for unrestricted use. If you have any questions please contact Anthony Gaines at (817) 860-8252.

Sincerely,

/RA/

Charles L. Cain, Chief
Nuclear Materials Licensing Branch
