Subject: EIS for PFS, ref Box Elder Spent Fuel Storage Initiative
Nuclear Regulatory Commission docket No. 72-22

Subject: Meeting today

Dear Mr. Delligatti

In response to the meeting I sent names of potential persons speaking. I heard from Richard Stallings this morning. He extends his support for the projects. He just returned from trips out of town. Due to family matters, he cannot attend the SLC meeting.

John Holmgren also has family matters and cannot attend but extends his support.

Bruce Shirley and Dr. George Nikopulus notified me that they will not be attending, but also extend their support.

Sincerely yours,

Bill
