Judge Paul Bollwerk III

RE:Nuclear Waste Dump in metro Salt Lake area!

C
AD

Your Honor, The vast size of Utah doe not reflect the population density of the state which in the next twenty years will have an estimated 2 MILLION PEOPLE living within 50 miles downwind of the proposed Nuclear Storage facility, I have lived in Red Wing, Minnesota where the Nuclear waste is now being stored and from a geographic position with prevailing westerly winds the waste is better placed there than trying to move it to Utah.

Sincerely,
David Baugh

Subject: Skull Valley Nuclear Waste Dump

As a citizen of the state of Utah I am opposed to the proposed nuclear waste storage facility in Skull Valley Utah. I have read a number of articles citing how harmless the waste really is but I still don't want it here. The utilities that generate this waste should be storing it where it's created, not shipping it off to the opposite end of the country. I think Private Fuel Storage is exploiting the Goshute Indians trying to get out of poverty. I don't agree that radioactive waste is harmless. I have 3 young children that I want protected from this potential disaster. Please urge your commission to deny this site's 20-year license.

Thank you,
Denice Hyer

Subject: Nuclear Waste Facility

I am opposed to the proposed 800-plus acre nuclear waste facility in Skull Valley. Please take this into consideration when making the decision.

Thank you.
Pamela Hansen
435 Creekside Cir # D
Murray UT 84107

No Whom it may
 concern ~~of~~ I protest
 urgently protest
 the current plan to
 stockpile nuclear
 waste on the Footite
Indian Reservation
 in Utah. It is wrong
 to move it across the
 country and it
 should be stored by
 the states that have
 decided to utilize
 nuclear power plants.
 I plan to protest
 this throughout
 the next 6 months
 until a "NO"
 decision is
 mandated.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

The report also states that Utah will be responsible for the cost of training and providing emergency responders and medical personnel to the site. Due to the fact that a private company is proposing to operate the facility, there is no Federal funding for any emergency response needs, training, equipment, accidents, etc. It is anticipated that fires in Skull Valley will be increased as a result of the danger posed by the sparks from increased rail traffic and heavy machine use.

The report also states that Utah will receive a stigma as the single largest receptacle of high level nuclear waste in the United States, and that stigma will have a negative impact on our entire economy. It will likely stigmatize our produce, dairy, and other agricultural products as well as our raw land.

Congressman Jim Hansen is officially opposed to the measure because of the many dangers it poses. Hansen states that it is dangerous to store nuclear waste near other high-risk facilities such as Deseret Chemical Depot and Dugway Proving Grounds. Hansen believes the facility will close down at least a part of Hill Air Force Base because of the danger. He also asserts that these actions will be harmful to national security and dangerous to the local population.

The Governor's office lists other dangers with the facility. First, the transportation of the waste is dangerous because the transportation routes pass through Utah's major watersheds. If a canister is damaged or contaminated, the facility will not accept it and will send it back through the state by rail to the original source. This means that leaky canisters will in fact be passing through our critical watersheds and most populous cities. Second, the waste canisters are known to have a propensity to develop hairline cracks and cast-weld fractures and have not been proven safe; these will be stopped at various times in rail yards throughout Utah, including downtown Salt Lake City. Third, there is a potential danger from sabotage accidents.

Fourth, there is a danger because the location has known geologic and seismic problems. Last, there is danger because the facility will be located within a mile of a military bombing range where accidents frequently happen.

NEEDED ACTION:

1. Attend the press conference which will be held on August 21st at 5:30 p.m. at the Little America Hotel in SLC.
2. Attend the U.S. Nuclear Regulatory Commission's final hearings on this matter which will be held on August 21st at the Little America Hotel. One hearing is from 2:00 to 4:00 p.m. and the other is from 6:00 to 9:00 p.m. UAR President Mac Brubaker will be speaking on behalf of the UAR at the 6:00 p.m. hearing. If you would like to speak as a concerned citizen, call Scott Flanders at (301) 415-1172 to be placed on the agenda.
3. Sign the petition attached below, encourage your friends, family and neighbors to do likewise. Bring that petition to either of the hearings on Monday or send them to Citizens Against Radioactive Waste, 4001 S. 700 E. Suite 115, Murray, Utah 87107.
4. If you cannot attend the hearing, send your written comment, to all of the following locations: by email to the U.S. Nuclear Regulatory Commission at <mailto://hearingdocket@nrc.gov> or fax at (301)415-1101 AND to Judge G. Paul Bollewerk of the Atomic Safety and Licensing Board Panel at <mailto://gpb@nrc.gov> or fax at (301)415-5599.

If you have any questions email Chris Kyler at <mailto://chris@utahrealtors.com>, or call (800) 594-8933.
