Dear Mr. Meyer,

The NRC has not carefully considered the alternatives to the PFS proposal. More examination must be given to the no action alternative and to the alternative that would eliminate the need for a concentrated waste storage. Despite the fact that the latter proposal was made by the Secretary of Energy the NRC simply sweeps it off in the DEIS.

I oppose the creation of a storage site on the Skull Valley Reservation. This waste can remain where it currently is.

Thank you,

David Garbett
