Subject: Supplement to LaSalle County Station Relief Request PR-12

Reference: Letter from C.G. Pardee (Commonwealth Edison (ComEd) Company) to U.S. Nuclear Regulatory Commission, "Revision to LaSalle County Station Relief Request PR-12," dated August 11, 2000.

During an evaluation for implementation of the proposed relief request, we identified that the Component Identification section of the relief request attached to the referenced letter is incorrect. The component numbers should be as follows:

From valve 1HG002B to valve 2HG002A
From valve 1HG002A to valve 2HG002B
From valve 1HG009 to valve 2HG006B
From valve 1HG006B to valve 2HG009

In addition, Figure PR-12.1 showed the check valves associated with the crosstie piping in the incorrect relative locations. A corrected copy of Figure PR-12.1 is attached, showing the proper relative location of the check valves. The outboard primary containment isolation valves listed above form the boundary between the accessible and inaccessible Hydrogen Recombiner System piping.

This request for relief supplements the referenced request for relief (see referenced letter) and does not change the basis for the relief request.

Should you have any questions concerning this letter, please contact Mr. Frank A. Spangenberg, III, Regulatory Assurance Manager, at (815) 357-6761, extension 2383.

Respectfully,

A handwritten signature in black ink, appearing to read "Charles G. Pardee". The signature is fluid and cursive, with a large initial "C" and "P".

Charles G. Pardee
