

The U.S. Nuclear Regulatory Commission (NRC) invites your comments on the Draft Environmental Impact Statement for the Construction and Operation of an Independent Spent Fuel Storage Installation on the Reservation of the Skull Valley Band of Goshute Indians and Related Transportation Facilities

(60)

1. To ensure your comments are appropriately considered, please indicate the sections or areas of the DEIS your comment(s) is directed toward?

2. Please state your comment(s)?

As a citizen of Utah I wish to express my disappointment that the NRC is even considering the proposal by the PFS to dump their Nuclear waste in our state.

- \* The most incredible part of this proposal is that if some kind of accident were to occur, the PFS would in no way be responsible. This is insane.
- \* All states in which the train carrying the very dangerous waste should be informed and given the chance to speak for and against.
- \* The citizens of Utah need much more time (at least 6 months) to consider and discuss all the risks and dangers involved.
- \* We in Utah are tired of hearing the government tell us that "everything is going to be OK"
- \* If the waste is so safe (as the PFS would have us believe) why don't they keep it where it is? why don't the states that produced the waste take the responsibility (there's that word again) for the actions.

I am in every way against this proposed dump site and ask that you thoughtfully consider what you are approving.

Thank you Matt Burnett Salt Lake city Utah
