~~SAFEGUARDS INFORMATION~~

Mr. Thomas H. Newton, Jr.
Reactor Engineer
MIT Research Reactor
Massachusetts Institute of Technology
138 Albany Street
Cambridge, MA 02139-4296

Dear Mr. Newton:

This is in regard to your request dated June 19, 2000, for renewal of your approval of a route to be used for transport of spent fuel from the Massachusetts Institute of Technology Research Reactor, Cambridge, Massachusetts, to the DOE Savannah River Site, Aiken, South Carolina.

The route, as set forth in Enclosure 1, meets the regulatory requirements of 10 CFR 73.37. Enclosure 2 constitutes approval for this route. Unless renewed, this route approval will expire two years from the date of this letter. Note that transportation of licensed radioactive material must be conducted in compliance with the applicable U.S. Department of Transportation regulations.

Arrangements with law enforcement agencies are required by 10 CFR 73.37(b)(6). Note that armed escorts are required for the urbanized areas of Boston, Massachusetts; Hartford and Waterbury, Connecticut; Harrisburg, Pennsylvania; Salem/Roanoke, Virginia; Charlotte, North Carolina; and Columbia, South Carolina. Information on law enforcement arrangements is provided in Enclosure 2, and is to be incorporated into your shipment plans and provided to your carrier along with instructions regarding its use. If your carrier deviates from the approved route, please provide details of the deviation to the contact listed below as soon as possible.

The notification requirements of 10 CFR 73.37(f) and 73.72 apply for each shipment. When making notification to this office under 10 CFR 73.72, please confirm that armed escort will be provided as required, and that the appropriate governors or designees will or have been notified.

Should you require additional information or have any questions concerning this matter, please contact Gloria M. Bennington of my staff at (301) 415-8524.

Sincerely,

Susan F. Shankman, Deputy Director
