Subject: Re: Radioactive Waste Storage Proposal for Goshute Indian Reservation

Thank you for your comments. We are forwarding it to our technical staff for consideration with other comments received.

We strongly oppose any attempts by the Goshute Indians to welcome radioactive waste onto their land in the State of Utah. We applaud Governor Mike Leavitt who has stated that it will be allowed into the state "over his dead body."

As the parents of three small children, we have to think of their best interests for healthy and happy, long lives. We do not know how anyone could think that bringing this waste into Utah is a good thing. There has to be a more sensible way for the Goshute people to generate revenue from their land. Please count our voices among those who oppose this proposal.

Thank you,
Mike and Shana Heyn
