Michael F. Weber  
Director  
Division of Fuel Cycle Safety and Safeguards  
Office of Nuclear Materials Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Weber:

I am thankful that representatives from the Nuclear Regulatory Commission are coming to Columbia, SC, on July 12<sup>th</sup> to discuss the various concerns that citizens have regarding MOX fuel.

Since many who will be present are familiar with the issue and have numerous questions, I am requesting that most of the agenda time be given to asking and responding to such questions. Perhaps the agenda could begin with a very short summarization by NRC representatives of plans for shipment of plutonium, the processing of the plutonium, the fabrication of MOX fuel, and the distribution of MOX fuel. Then the substantial majority of the time could be allocated to questions and concerns raised by people attending the meeting.

I look forward to the meeting.

Sincerely,

Gerald L. Rudolph
