Subject: Nuclear Waste in UTah

I do not want to think that anyone would consider sending Nuclear Waste to Utah, I strongly oppose it.

The government cannot expect people to continue to be blind to the fact that it is not acting on our behalf, but on its own if Nuclear Waste is brought to Utah. That is unconstitutional and socialistic behavior.

I will not vote for any politician who doesn't talk the talk and walk the walk of environmental safety.

We have the Tooele Army Depot which has been poisoning people for decades and now they want Nuclear Waste facilities?
What are you people nuts?
