Comments: As a concerned citizen, I have witnessed several instances of the NRC steamrolling decisions at 'public' hearings. This is a decision you should not have the authority to make. Let the people of the United States decide. This is not an issue of 'what they dont know wont hurt them'. You know that.

This project is doomed to cause great environmental and human impact. How can you be so thoughtless?

Americans have backed Native Americans into a corner. A project of this nature further exhibits your eco-racism. You wouldnt store this stuff next to your mothers house. Furthermore, she would kill you if you did it to one of her neighbors.
