Subject: waste dumping in Utah

140

I hope that my opinion counts on issues here in Utah. I have heard alot about the waste dumping that may happen near Toelle on the Indian reservation. I do not want that waste next door to me. If by chance an accident occured the pollution would blow right over the mountain and affect a large metropolitan area. Salt Lake City isn't a large city, but there are a lot of people here. Also, there are many faults that run through Northern Utah that could create accidents. I don't want that waste next door. Please take my concerns into consideration.

Thank you,
Eric Johnson
