By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)
