The people of Utah do not want the country's nuclear waste in our backyard! I live 1 hour down wind from the proposed Private Fuel Storage site at Skull Valley Goshute Reservation, and I am very opposed to the entire concept. From potential earthquake safety issues to possible transportation problems, consolidating all the nation's nuclear waste in my back yard is terrifying. I am asking the Nuclear Regulatory Commission to protect me, my family and nearly 2 million Utahns from a half baked plan. Do not allow the Goshute Reservation Waste Site to become a reality.

Sincerely,
 John L Funk
 Salt Lake City, Utah
