Comments:

I am informing my opposition on the transportation of nuclear waste to
Skull Valley in Utah.

The NRC should hold public hearings in all transport corridor States
that would be impacted by PFS member company shipments. NRC has NONE.
And the NRC's fails to calculate the added risks from PF's proposal to
ship contaminated casks back across the entire country to the reactors
of origin without first dealing with the leaks
Most of all NRC's statement in the DEIS that PFS has no environmental
justice impacts is ludicrous.
The DEIS does not address the cumulative impacts of adding high-level
nuclear waste dump to Skull Valley which is already surrounded by many
toxic facilities.

Please know it is just that I care for the Native American lands and all
that has been going on.

thanks for listening
Rachel Genovese Hildebrandt
