(208)

No. _____

Date 9/17/00

To David L. Meyer, U.S. Nuclear Regulatory Committee
Pardon this form but I don't have a secretary. No entity,
public or private, has legitimate authority to impose a
vast amount of nuclear waste on Utah or Nevada or anyone
else. This waste should be handled in those areas which benefited
from its use. If they're so anxious to be rid of it then they shouldn't
have created it in the first place. Now it is their responsibility.

Sincerely,
Signed _____

Douglas E. Pike
