Dear Dr. Jankovich:

**RE: Amendment to Sealed Source Registration No. NR-0220-D-113-S for  
TheraSphere Y-90 Glass Microspheres**

MDS Nordion wishes to amend the above current source registration to add a fourth dose size, namely 3 GBq. This means that there will be four dose sizes available, 3 GBq, 5 GBq, 10 GBq and 20 GBq.

Thank you for your attention to this matter. If further clarification is required please do not hesitate to contact me.

Yours sincerely,
