Dear Mr. Kingsley:

The Region III Office of Investigations initiated an investigation on November 8, 1999, to determine if a Quad Cities maintenance worker was discriminated against for raising concerns during a training class. The training class was conducted during the week of October 4, 1999, and contained on-the-job training and class room instructions for performance of crane inspections.

The evidence developed during the investigation prompted the NRC to conclude that a Quad Cities maintenance worker was not discriminated against for raising concerns during a training class. A copy of the report synopsis is enclosed. This concludes the NRC's review into this matter.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

If you have any questions concerning this matter please contact me at (630) 829-9500.

Sincerely,

John A. Grobe, Director  
Division of Reactor Safety
