**NO RADIOACTIVE WASTE TRANSPORT THROUGH
OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions from the Utah Department of Environmental Quality DEIS (Draft Environmental Impact Statement) review, I recognize the enormous and potential risks to our citizens. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. **We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process.** (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. **We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process.** (please print)

This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens living near the transportation corridors. This proposed facility and transportation routes will damage perceptions of Utah and create negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. This unprecedented facility could bring closures to Hill Air Force Base and necessary training operations for our national defense. The utility corporations and federal agencies fail to disclose complete financial structures that would demonstrate a sound analysis for safe operations and long-term stability. The costs for emergency response training and technical operations to safeguard our citizens can not be the responsibility of Utah. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and as a solution for lack of a national nuclear waste policy.

We demand that the Nuclear Regulatory Commission extend the comment period to another minimum 6 months /or end the licensing process.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulator Commission extend the comment period for a minimum 6 months/or end the licensing process.

U.S. Rep. Wayne Owens		

Executive Committee: Chairman: Jim McConkie; Brent D. Ward; Robert Bradley; Rocky Navarro/ Executive Director: Anne Sward Hansen

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit or value to the citizens of Utah. Under the directives of the Utah Department of Environmental Quality review, we recognize the enormous and potential risks to our citizens living near the transportation corridors, the devaluation of property, and the economic losses that would occur. The negative stigma and perception that will be brought to our state, agricultural industry, tourist industry and other entities will impair further viable economic and cultural growth. This unprecedented facility will bring closures to our Hills Air Force Base and necessary training operations for our national defense. The utility corporations and federal agencies fail to disclose complete financial structures that would demonstrate a sound analysis for safe operations and long term stability necessary. The costs for emergency response training and technical operations to safe guard our citizens can not be the responsibility of Utah. Utah will not tolerate being targeted as the enabler for our nation's toxic economy.

We demand that the Nuclear Regulatory Commission extend the comment period 6 months /or end the licensing process.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens living near the transportation corridors. This proposed facility and transportation routes will damage perceptions of Utah and create negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. This unprecedented facility could bring closures to Hill Air Force Base and necessary training operations for our national defense. The utility corporations and federal agencies fail to disclose complete financial structures that would demonstrate a sound analysis for safe operations and long-term stability. The costs for emergency response training and technical operations to safeguard our citizens can not be the responsibility of Utah. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and as a solution for lack of a national nuclear waste policy.

We demand that the Nuclear Regulatory Commission extend the comment period to another minimum 6 months /or end the licensing process.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. This proposed facility and transportation routes will create damage perception and negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and solution for lack of a national nuclear waste policy. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process. (please print)

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens living near the transportation corridors. This proposed facility and transportation routes will damage perceptions of Utah and create negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. This unprecedented facility could bring closures to Hill Air Force Base and necessary training operations for our national defense. The utility corporations and federal agencies fail to disclose complete financial structures that would demonstrate a sound analysis for safe operations and long-term stability. The costs for emergency response training and technical operations to safeguard our citizens can not be the responsibility of Utah. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and as a solution for lack of a national nuclear waste policy.

We demand that the Nuclear Regulatory Commission extend the comment period to another minimum 6 months /or end the licensing process.

NO RADIOACTIVE WASTE TRANSPORT THROUGH OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!

We, the undersigned, are residents of corridor communities – of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

**NO RADIOACTIVE WASTE TRANSPORT
THROUGH OUR COMMUNITIES
TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities - of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens living near the transportation corridors. This proposed facility and transportation routes will damage perceptions of Utah and create negative stigma potentially causing devaluation of property, economic losses to our agricultural industry, tourist industry and other entities impairing further viable economic and cultural growth to our state. This unprecedented facility could bring closures to Hill Air Force Base and necessary training operations for our national defense. The utility corporations and federal agencies fail to disclose complete financial structures that would demonstrate a sound analysis for safe operations and long-term stability. The costs for emergency response training and technical operations to safeguard our citizens can not be the responsibility of Utah. Utah will not tolerate being targeted as the enabler for our nation's toxic economy and as a solution for lack of a national nuclear waste policy.

We demand that the Nuclear Regulatory Commission extend the comment period to another minimum 6 months /or end the licensing process.

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process.

Executive Committee: Chairman: Jim McConkie; Brent D. Ward; Robert Bradley; Rocco J. Navarro/ Executive Director: Anne Sward Hansen

By signing this petition I hereby declare that I oppose the opening of a nuclear waste storage facility on the Goshute Skull Valley Reservation. This facility will bring no benefit to the citizens of Utah. Based on the conclusions of the Utah Department of Environmental Quality review, I recognize the enormous and potential risks to our citizens. We demand that the Nuclear Regulatory Commission extend the comment period for a minimum 6 months /or end the licensing process.

**NO RADIOACTIVE WASTE TRANSPORT THROUGH
OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

NO RADIOACTIVE WASTE TRANSPORT THROUGH OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

**NO RADIOACTIVE WASTE TRANSPORT THROUGH
OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.

**NO RADIOACTIVE WASTE TRANSPORT THROUGH
OUR COMMUNITIES TO SKULL VALLEY, UTAH!!!**

We, the undersigned, are residents of corridor communities — of neighborhoods and towns along the roads and rails that would be impacted by shipments of high-level radioactive waste if a radioactive waste dump is established on land owned by the Skull Valley Band of the Goshute Tribe in Utah.

We urge you: (1) to hold public hearings in our corridor communities regarding the Draft Environmental Impact Statement so that we can express our concerns to you about the transport of the wastes and the hazards of the proposed site; and (2) to extend the public comment period.
