Dear Mr. Lietzmann:

The "Arrangement between the Federal Minister for the Environment, Nature Conservation and Nuclear Safety (BMU) of the Federal Republic of Germany and the Nuclear Regulatory Commission (NRC) of the United States of America for the Exchange of Technical Information and Cooperation in Nuclear Safety Matters," last concluded for a five-year period on October 19, 1995, is due to expire on October 18, 2000. Our staffs have been working to develop a mutually acceptable means to extend it. While I think that we will obtain both agency and interagency concurrence on the latest approach under consideration, a very simplified note of extension (see Enclosure) slightly revised from the one you forwarded September 27, 2000, we will not be able to do so before the current Arrangement expires. I, therefore, propose that, by this letter and your positive response, we agree to the informal extension of our 1995 Arrangement while active negotiations proceed on its extension and until required administrative details can be completed.

I look forward to hearing from you soon.

Sincerely,

/RA/

Office of International Programs
