Dear Mr. Ward,

In our application for device registration approval dated 22 June, 2000, IMS Systems Inc. included the model 5245, 5321, and 5221 devices.

We respectfully request that the application for the models 5321 and 5221 be withdrawn from review at this time. Based upon our experience with the 5245, IMS would like an opportunity to review these models before re-submittal.

Thank you in advance for your help and guidance,

John Buckman
General Manager
IMS Systems Inc.
