Award

The Arthur S. Flemming Awards Commission

The George Washington University
WASHINGTON DC

November 6, 2000

The Honorable Greta Joy Dicus
Chairwoman
U.S. Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, MD 20555-0001

Dear Ms. Greta Joy Dicus:

For fifty-one years, the Arthur S. Flemming Awards have recognized the best and brightest individuals within the federal service. The George Washington University is committed to carrying forward Dr. Flemming's spirit. To this end, we are now soliciting nominations for the fifty-second cycle of this prestigious award. As the head of the U.S. Nuclear Regulatory Commission, or as an Incentive Awards Administrator you are being asked to nominate individuals from your department or agency to be celebrated for their outstanding contributions and innovative accomplishments. Enclosed is a nomination form that further explains the eligibility requirements and judging criteria. These forms are being sent to all federal agency heads and their Incentive Awards Administrators. **The deadline for the nomination form is February 23, 2001.** Your assistance in promoting this award throughout your department or agency is greatly appreciated. Awards will be presented at The George Washington University in Washington, DC on June 5, 2001.

Arthur S. Flemming, the namesake of the award, epitomized outstanding achievement in federal government service. He served in an official capacity to every president from Franklin Roosevelt to Ronald Reagan and was an unofficial advisor to Presidents Bush and Clinton. In 1994, President Clinton awarded him the Presidential Medal of Freedom, our nation's highest civilian award.

This awards program, administered by The George Washington University and the Arthur S. Flemming Commission, with the support of private enterprises, honors exemplary federal employees who have made significant contributions to the federal government. Some of the more well-known recipients include: U.S. Senator Daniel Patrick Moynihan ('64); former D.C. Control Board Chairman Andrew Brimmer ('65); former American Red Cross Director Elizabeth Hanford Dole ('71); and the Director of the National Institute of Allergy and Infectious Diseases, Dr. Anthony Fauci ('79). Each received the award during early years of government service and prior to becoming a national figure.

Honoring Outstanding Men & Women in the Federal Government

The George Washington University
714 21st Street, N.W., Third Floor • Washington, DC 20052 • (202) 994-9132 • Facsimile (202) 994-1229

By recognizing outstanding accomplishment, we encourage the best workers to remain in public service and quite possibly influence others to join the civil service. We know the leaders of today will be tomorrow's executives, supporting a vibrant nation in the dawn of a new millennium. Those eligible for the award are career federal employees with at least three but no more than fifteen years of federal government service. Nominees may include employees in department headquarters, regional or field offices, or military installations throughout the world. Flemming Awards Commission seeks your assistance in the initial screening process, by requesting that you nominate the individual(s) within your agency or department that best exemplifies the spirit of Dr. Flemming.

I deeply appreciate your interest and support for the Arthur S. Flemming Awards program and invite you to contact Kathryn Newcomer, the planning committee chairperson, at (202) 994-3959 if you have any questions.

Sincerely,

Stephen Joel Trachtenberg
President

2000 AWARDS NOMINATION FORM

The George Washington University
WASHINGTON DC

FIFTY-SECOND ANNUAL ARTHUR S. FLEMMING AWARDS PROGRAM

Presented By

THE GEORGE WASHINGTON UNIVERSITY

To Honor

OUTSTANDING MEN AND WOMEN

In The

FEDERAL GOVERNMENT

The George Washington University announces the Fifty-Second Annual Arthur S. Flemming Awards Program honoring outstanding men and women in the Federal Government in 2000.

Purpose of The Arthur S. Flemming Awards Program

The purpose of honoring outstanding men and women in the Federal Government each year is fourfold:

(1) to recognize those who have performed outstanding and meritorious work for the Federal Government;

(2) to encourage high standards of performance in the Federal Government;

(3) to enhance appreciation of our form of government and the opportunities and responsibilities that it presents; and

(4) to attract and retain outstanding persons to the Federal service.

Eligibility of Nominees

- Any career Federal employee of the Executive Branch as of December 31, 2000 of the United States Government or member of the uniformed services who has at least three but no more than fifteen years service as of December 31, 2000 is eligible for nomination in the Arthur S. Flemming Awards Program.
- Similar employees of the Library of Congress, General Accounting Office, Office of the Architect Capitol, Government Printing Office, Administrative Office of the U.S. Courts, Smithsonian Institution, and Botanical Gardens are also eligible.
- A nominee may be an officer or employee in the department headquarters or field service throughout the world.
- Awards will be made to individual government employees who have made outstanding contributions to public service on either a sustained basis or throughout a single exceptional accomplishment during 1999. Individuals previously nominated but not selected for a Flemming Award may be renominated, subject to the eligibility criteria stated above.

General Information

Twelve separate awards will be made. Four awards will be made to individuals in the scientific or technical fields ("Scientific"), four to individuals in administrative or executive fields ("Administrative"), and four to individuals in information and technology fields ("Applied Science"). A nomination must be submitted in only one category (i.e., Scientific, Administrative, or Applied Science), although duties may overlap two or more areas. Nominees should have demonstrated exceptional ability and superior performance during the year for which nomination is made, either in work undertaken during that year or in successful completion during that year of a task commenced in the prior year(s). Nominations for work undertaken entirely in, or completed in, prior years are not eligible. Nominees also should have demonstrated either a single, outstanding achievement, or a continuously superior level of performance over a period of time, as well as recognition through awards and publications (where appropriate, e.g. scientific endeavors). Nominees should also have an active participation in community activities (including professional activities where the purpose is not considered self-promoting) as a demonstration of a well-rounded lifestyle. Administrative nominees should have demonstrated exceptional ability in administration (i.e. personnel, finance, labor, or law). Scientific nominees should have demonstrated achievement that is considered to be pioneering, unique, and innovative with a break-though impact. Applied Science nominees should have demonstrated innovative uses in technology to address an important agency objective, including adapting commercial off-the-shelf technology to meet the agency's needs.

Award Selection and Presentation

Winners of the award will be chosen by a panel of distinguished, nationally prominent judges. Each award winner will receive a suitably engraved medal. Awards will be presented at the Arthur S. Flemming Awards Program in Washington, D.C. on June 5, 2001.

electronic mail <flemming@www.gwu.edu>
homepage <http://www.gwu.edu/~flemming>

Preparation of Nominations

Each nomination must be accompanied by a citation of accomplishments (approximately 150 words in length) summarizing the work performed by the nominee which is to be considered for the Award. A citation must contain specific description of the nominee's work and achievements. Winners' citations will be used in press releases and in the commemorative brochure. Nominations that fail to include a citation will be considered incomplete..

- All nominations must be submitted with 20 copies on 8 1/2" x 11" paper.
- Two professional, portrait-style (head and shoulders only) 8" x 10" black-and-white photos should be included with each nominee's package.

- All information submitted in this nomination should be typewritten single-spaced with double spacing between paragraphs.
- The descriptions requested below should be completed on separate sheets of paper on one side only and should carry as a heading the abbreviated titles appearing at the beginning of each category.
- The George Washington University must be specifically notified of any facts which may not be released to the public news media.
- Special emphasis will be given by the Judges to the PROFESSIONAL ACHIEVEMENT of the Nominee.

Each nomination should include the following:

(1) Federal Employment History: A brief chronological review of the nominee's Federal employment indicating the number of years within each position and a brief description of the nominee's present duties and responsibilities, including the scope of his or her work.

(2) Professional Achievement: A description of the nominee's *specific* accomplishment(s). This description should make clear the nature and significance of the achievement and the nominee's specific role. Include a statement of the extent of application of the nominee's achievement (i.e. affecting the function or mission of one facility or installation, an entire agency, or government wide).

Examples for Scientific, Administrative, and Applied Science categories might include, but are not limited to, the following:
- where appropriate, work that has realized significant cost-savings/avoidance;
- broad, lasting beneficial impact on the community at large, both national and international;
- if the nominee is a team member, irrefutable evidence of the nominee's leadership of and inspiration to fellow members of the team to achieve its goal(s). Nomination of individuals who are effectively doing the job for which they are paid will not be rated as highly (e.g. a program director may be appointed to the position based on past performance but in this capacity work only as a coordinator–exceptional leadership skills to achieve results must be demonstrated);
- wide recognition by community and peers.

Additional example for Scientific nominees:
- outstanding contributions to the advancement of science and medicine.

Additional examples for Administrative nominees:
- expert knowledge of resources and management principles and techniques, laws and regulations applicable to the administrative programs;
- demonstrated professional expertise and leadership in development of short and long range policy planning, strategic planning, and quality management.
- demonstrated outstanding leadership with group leaders and teams;
- expert ability to establish and maintain effective professional relationships with management and staff, coworkers, and personnel of other organizations in crosscutting policy areas;
- demonstrated evidence of successful problem-solving, conflict resolution, and performance-based recognition management decision-making;
- recognition within policy/programmatic area for effective leadership.

Additional examples for Applied Science nominees:
- overcoming obstacles to the adoption of new technology;
- development of a new technology or technique or approach that has application in other agencies.

(3) Awards and Publications: A list of any government or professional awards received and a list of any professional publications germane to the nominee's career objectives.

(4) Community Involvement: The nominee's significant community service whether within or outside of their professional field. Activities which have had an important impact on the community will be considered in the judgement process.

Arthur Sherwood Flemming, Ph.D.

Born: June 12, 1905
Died: September 7, 1996

Years	President	Description
