17 November 2000

Dr. Richard A. Meserve, Chairman
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Dr. Meserve,

On behalf of a group of scientists calling themselves Scientists for Secure Waste Storage, I write to thank you for your sending a copy of 111 form letters that you received about Private Fuel Storage and the Commission's reply.

We appreciate the reply of the Commission and hope that you will be able to maintain the goal you have set yourselves on being "guided solely by the governing standards for protection of public health, safety and the environment.". We ask for nothing more. As we have stated before, we stand ready to help the Commission in this overall goal and in explaining the scientific and technical aspects of the proposed facility to the public.

Yours Sincerely,

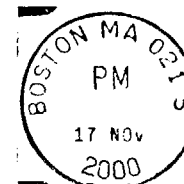

Richard Wilson
Mallinckrodt Research Professor of Physics
