

Pilgrim Initial Exam (11/6-8/00)
ROI 2000-17 response

1. Method used to develop written exam outline was application of a computer program developed by W/D Associates, INC. which randomly selects K/As based upon chosen criteria such as BWR RO and/or SRO exam.
2. Method used to control question duplication from audit exam.- The audit exam was completed before the license exam was started
3. Of 100 questions 37 were bank, 19 were modified bank, 44 were new.
4. See original and revised outline submittals for description of K/A replacements with plant specific topics.
5. All questions were reviewed and compared for KA match. No discrepancies were identified.
6. See Form ES-401-9 for question comments and disposition. Three questions were considered unsat and were replaced. Twenty-one questions had changes ranging from typos to editorial changes in the stem and/or distractors.
