

December 13, 2000

Mr. Ralph Beedle, Senior Vice President  
and Chief Nuclear Officer, Nuclear Generation  
Nuclear Energy Institute  
1776 I Street, Suite 400  
Washington, D.C. 20006-3708

SUBJECT: INDUSTRY PERSPECTIVE ON SECY-00-0194, "RISK-INFORMING SPECIAL  
TREATMENT REQUIREMENTS"

Dear Mr. Beedle:

Your letter of November 8, 2000, to Chairman Meserve on the above subject has been referred to me for response. In your letter, you noted three key issues related to the topics discussed in the SECY paper—treatment of systems, structures and components following categorization, selective implementation on a system basis and inclusion of a risk-informed option for Part 54 (license renewal).

As noted in the SECY, the staff views expressed on particular topics were preliminary in order to facilitate continued interaction with our stakeholders on this rulemaking. We are planning a workshop in the February 2001 time frame for this purpose. We welcome the opportunity during this workshop to discuss with you and other stakeholders the range of topics raised in your letter.

Sincerely,

/RA/ Signed by S. Collins

Samuel J. Collins, Director  
Office of Nuclear Reactor Regulation

Project No. 689
