Atlantic Richfield Company  
Products Division  
ATTN: Mr. A. I. Snow, Chairman  
Radioisotope Committee  
400 East Sibley Boulevard  
Harvey, Illinois 60426

Gentlemen:

This refers to your application of March 13, 1972, to amend License No. 12-00140-04 to authorize the production and distribution of heating oil containing carbon 14 or hydrogen 3 as an exempt concentration product. In order to evaluate your request, we will need the specific information required by Sections 32.11(b) and (c), 10 CFR 32 (copy enclosed).

The State of Washington is an Agreement State which has assumed jurisdiction for its own materials licensing. Your proposal to use materials at your Ferndale, Washington refinery should be discussed with:

Mr. Arnold J. Moen, Supervisor  
Radiation Control Section  
Division of Health  
Washington State Department of Social  
and Health Services  
Olympia, Washington 98501

Sincerely,

Original signed by  
Robert E. Brinkman

Robert E. Brinkman  
Materials Branch  
Division of Materials Licensing

Enclosure:
