MEMORANDUM TO: William D. Travers
Executive Director for Operations

FROM: Janice Dunn Lee, Director /S/
Office of International Programs

SUBJECT: COMMENTS ON PROPOSED INTERNATIONAL ATOMIC
ENERGY AGENCY 2002/03 PROGRAM AND BUDGET

The U. S. Government is preparing to review and provide comments on the International Atomic Energy Agency's (IAEA) proposed Program and Budget for 2002 and 2003. Those comments are fed back through the U. S. Mission to the IAEA in Vienna as part of the Member State review process, and can potentially change the content and emphasis of the Agency's work. NRC contributes to this process by reviewing those programs relevant to our work, including nuclear safety, radioactive waste, aspects of nuclear energy, safeguards, and verification and security of nuclear material. I would, therefore, welcome your comments on the attached documents covering Major Program 1 for Nuclear Science and Technology (including the nuclear fuel cycle); Major Program 3 on Nuclear Safety and Protection against Radiation; and Major Program 4 on Nuclear Verification and Security of Material. Please provide comments to Charles Serpan of my staff at 415-2341 or by email at CZS by **January 12, 2001**.

Copies of documents, as appropriate, for each office (NRR, NMSS, and RES) are attached for your distribution.
