RE: Private Fuel Storage, LLC Public Document Room

Mr. Meyer:

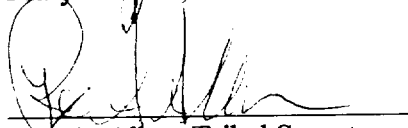

We have been informed that the NRC plans to open a public document room concerning plans by Private Fuel Storage, LLC to build a temporary spent fuel storage facility on the Skull Valley Goshute Reservation.

It is our request and recommendation that this public document room be located in the City of Tooele, Utah. Tooele City, Tooele County is located within forty miles of the potential site and easily accessible from most areas of the Wasatch Front. Tooele City would be able to fulfill the criteria required for the public document room. Tooele City the largest city within Tooele County would be one of the cities most affected by the construction of this temporary storage facility.

Thank you,

Leon D. Bear, Chairman

Mary J. Allen, Vice Chair

Rex A. Allen, Tribal Secretary
