3) PFSLLC Letter, Parkyn to Director, Office of Material Safety and Safeguards, Proprietary Responses to Request for Additional Information, dated May 19, 1998

Private Fuel Storage transmitted responses (Ref. 1) to the NRC Request for Additional Information regarding the Private Fuel Storage Facility (PFSF) 10 CFR 72 License Application (Ref. 2). Proprietary responses to RAIs were submitted to the NRC via Reference 3.

Please find enclosed Revision 1 (original plus 15 copies) to the PFSF Safety Analysis Report and Emergency Plan that incorporates information as noted in the RAIs response.

If you have any questions regarding this response, please contact me at 608-787-1236 or our Project Director, John Donnell, at 303-741-7009.

Sincerely yours,

John D. Parkyn, Chairman

LICENSE APPLICATION

REVISION 1

The enclosed Revision 1 to the Private Fuel Storage Facility Safety Analysis Report and Emergency Plan incorporates revisions resulting from responses to the NRC Request for Additional Information dated April 1, 1998 as well as other changes, both editorial and corrective, that we have identified since the original submittal.

The enclosed packages are provided in a "replacement page" format. Separate replacement page instructions are provided for each package. If a page is different than the original submittal, either due to an actual text change or due to a shift in text caused by insertion of an earlier text change, then the revision number of that page has been changed to Revision 1 in the upper right hand corner. The location of text changes is marked by a side bar in the right hand margin.
