

February 20, 2001

The Honorable Scott McCallum
Governor of Wisconsin
Madison, Wisconsin 53707

Dear Governor McCallum:

In 1976, the Nuclear Regulatory Commission (NRC) adopted a recommendation from several State organizations, including the National Governors' Association, that we request each State to appoint a single person to act as liaison to NRC for the purpose of improving Federal/State cooperation. The NRC looks to the Governor-appointed State Liaison Officers to provide a communication channel between the States and the NRC, to be the key person in the State to keep the Governor completely informed on nuclear regulatory and related public health and safety matters, and to provide NRC with answers to questions posed to the States on particular issues.

Governor Thompson had previously appointed Edward J. Gleason, Administrator of the Division of Emergency Management in the Wisconsin Department of Military Affairs, as Wisconsin's State Liaison Officer. The NRC will continue to work with Mr. Gleason, and, unless you choose a new State Liaison Officer, we will keep you informed of our programs and activities through Mr. Gleason. At the same time, we will maintain our ties with various individuals in State agencies with whom we have established relationships on specific issues.

The Commission looks forward to the continued participation by the State of Wisconsin in the NRC's State Liaison Officer program. If you or your staff have any questions, or would like additional information, please contact Paul H. Lohaus, Director of NRC's Office of State and Tribal Programs in Headquarters at 301-415-3340 or Roland Lickus, our Region III State Liaison Officer, at 630-829-9660.

I am looking forward to continuing an excellent working relationship with the State of Wisconsin.

Sincerely,

/RA/

Richard A. Meserve
