

March 9, 2001

LICENSEE: Consolidated Edison Company of New York, Inc. (Con Ed)
FACILITY: Indian Point Nuclear Generating Unit No. 2 (IP2)
SUBJECT: SUMMARY OF MEETING WITH PETITIONERS AND CON ED
CONCERNING 10 CFR 2.206 PETITION REGARDING INDIAN POINT
NUCLEAR GENERATING, UNIT NO. 2, MANAGEMENT ISSUES (TAC
NO. MB0736)

On January 24, 2001, the Nuclear Regulatory Commission (NRC) met with members of the Citizen Awareness Network (CAN), Environmental Advocates, Westchester Peoples Action Coalition, and Nuclear Information and Resource Service (petitioners), who had filed a 10 CFR 2.206 Petition concerning Indian Point Unit 2 (IP2), at the NRC Headquarters in Rockville, Maryland. A representative from Consolidated Edison Company of New York (Con Ed) also participated in the meeting. The purpose of the meeting was to provide an opportunity for the petitioners and the licensee to provide additional information and clarifications concerning the Petition, submitted on December 4, 2000, requesting the NRC (1) suspend the license for IP2 for persistent, pervasive, and negligent management of the reactor, (2) investigate potential misrepresentation of material fact, (3) revoke the license for IP2 if evidence of deliberate misrepresentation of information is found, (4) maintain IP2 on the agency focus list if the NRC does not revoke or suspend the license for IP2, (5) deny the transfer of the IP2 license until certain management issues have been addressed, and (6) maintain the reactor shutdown until management issues are analyzed and corrected.

Each of the petitioners discussed the basis for the requested actions and emphasized why they felt the requested actions were necessary. Enclosure 1 is a list of attendees at the meeting. The meeting was transcribed, and a copy of the transcription is provided as Enclosure 2. During the meeting, the petitioners provided three documents to supplement their December 4, 2000, Petition; a series of IP2 condition reports, an evaluation of the condition reports by the Union of Concerned Scientists, and a redacted copy of the Citizen Awareness Network, Inc.'s Revised Contentions on Financial Qualifications Issue in the License Transfers for James A. FitzPatrick and Indian Point 3 Nuclear Power Stations Per Commission Memorandum and Order, November 27, 2000. (Redacted version dated, January 10, 2001). These three documents are provided as Enclosures 3, 4, and 5, respectively. The copy of the IP2 condition reports in Enclosure 3 has been redacted due to the sensitive nature of the information contained in the IP2 condition reports.

Please direct any inquiries concerning this meeting to the Petition Manager, Christopher Gratton, at (301) 415-1055 or CXG1@NRC.GOV.

Docket No. 50-247

Enclosures: As stated
