Mr. W. M. Flowers, President  
Sinclair Research Laboratories, Inc.  
600 Fifth Avenue  
New York 20, New York

Dear Mr. Flowers:

Let me express my pleasure in the receipt of your March 15 letter and your kind invitation to have representatives of the Atomic Energy Commission attend ceremonies dedicating your high-level radiation facility at the Harvey, Illinois Research Center. I regret very much that I will be unable to attend personally due to previous commitments.

Dr. Paul C. Aebersold, who is Assistant Director for Isotopes and Radiations, however, will be available to attend and to represent this Division.

Dr. Aebersold has made separate travel arrangements.

Very truly yours,

H. L. Price, Director  
Division of Civilian Application
