

February 20, 2001

Mr. Charles A. Oravetz, Assistant Regional Administrator
Southeast Regional Office
National Marine Fisheries Service
9721 Executive Center Drive
St. Petersburg, FL 33702

SUBJECT: STATUS OF INFORMAL CONSULTATION FOR LICENSE RENEWAL AT
EDWIN I. HATCH NUCLEAR PLANT, UNITS 1 AND 2 (TAC NOS. MA8330 AND
MA8332)

Dear Mr. Oravetz:

On August 31, 2000, the U.S. Nuclear Regulatory Commission (NRC) staff submitted a biological assessment to your office, initiating an informal consultation. The biological assessment evaluated whether the proposed renewal of the Edwin I. Hatch Nuclear Plant (HNP), Units 1 and 2, operating licenses for a period of an additional 20 years would have adverse effects on a listed species.

I request that you provide us with your best estimate for the completion of the informal consultation. Discussions have been ongoing between the NRC staff and your staff. In the meantime, the NRC staff is continuing the development of an environmental impact statement for the renewal of the HNP licenses. Under the current schedule, the staff expects to complete development of the final environmental impact statement in April and to issue it to the Environmental Protection Agency in early June.

We will continue to work with your staff to resolve any concerns related to the proposed action. If you have any questions, please contact Andy Kugler at (301) 415-2828.

Sincerely,
/RA/Signed By: CACarpenter
