Re: Millstone Nuclear Power Station, Units 1, 2 and 3
Facility Operating License Nos. DPR-21, DPR-65 and NPF-49
Docket Nos. 50-245, 50-336 and 50-423
Supplemental Information in Support of Application for Order and Conforming
Amendments for License Transfer

Ref.: August 31, 2000 letter from James P. O'Hanlon and Bruce D. Kenyon to U.S. NRC,
Application for Order and Conforming Amendments for License Transfer

In the above referenced application, Northeast Nuclear Energy Company (NNECO) and Dominion Nuclear Connecticut, Inc. (DNC) applied for NRC's consent and conforming license amendments to transfer the operating licenses for the Millstone Nuclear Power Station (Millstone) Units 1, 2 and 3 to DNC. This letter provides additional information supplementing and supporting that application.

On December 14, 2000, NNECO notified the NRC that two Unit 1 spent fuel pins are currently unaccounted for. These spent fuel pins are identified as the pins with serial numbers BP0406 and BK0136 from fuel bundle MS 557. DNC, NNECO, and the current owners of Unit 1, The Connecticut Light and Power Company and Western Massachusetts Electric Company, have agreed that acquired assets under the Purchase and Sale Agreement shall include these two spent fuel pins, and that DNC shall be considered the person licensed by the NRC to possess these fuel pins, unless it is later determined that these fuel pins were previously transferred to a person authorized by the NRC to receive and possess them. NNECO and the current Unit 1 owners have indemnified DNC against costs or liability that may arise from the missing spent fuel pins, so this situation will have no effect on DNC's financial qualifications. This indemnity is supported by the fact that the current Unit 1 owners are and will continue to be electric utilities as defined by the NRC in 10 CFR 50.2. Moreover, in the event that the current Unit 1 owners fail to maintain investment grade securities ratings, DNC will be further protected by an irrevocable, unconditional standby letter of credit having a drawing amount of at least \$25 million, or equivalent financial assurance.

ADD

If you have any questions concerning this supplemental information, please contact David A. Smith, Process Owner-Regulatory Affairs, NNECO at 860-437-5840, or Joseph D. Hegner, Project Supervisor, Dominion Generation, at 804-273-2770.

There are no regulatory commitments contained in this letter.

Sincerely,

Eugene S. Grecheck
Vice President - Nuclear Operations/Millstone
Dominion Nuclear Connecticut, Inc.

Leon J. Olivier
Senior Vice President and Chief Nuclear Officer
Northeast Nuclear Energy Company
