Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Semiannual Fitness for Duty Performance Report

Attached is the Semiannual Fitness for Duty Performance Report for the period of July 1, 2000, through December 31, 2000, for Turkey Point Units 3 and 4, as required by 10 CFR 26.71 (d).

The Turkey Point Fitness for Duty Program uses a random testing rate of at least 50%.

Attachment A contains the program performance data. Also attached is a list of events reported and a summary of management actions taken.

Should there be any questions or comments regarding this information, please contact us.

Very truly yours,

R. J. Hovey
Vice President
Turkey Point Plant

Other		0	0	0	0	0	0
TOTAL		269	1	41	0	964	21

Breakdown of Confirmed Positive Tests for Specific Substances

	Marijuana	Cocaine	Opiates	Amphetamines	Phencyclidine	Alcohol	Refusal To Test	
Licensee Employees						1		
Long-Term Contractors						0		
Short-Term Contractors	12	5	0	0	0	2	2	Total
PTN TOTALS	12	5	0	0	0	3	2	22

Our percentage of population tested from January 1, 2000 to December 31, 2000 was 51.39%.

Six of the positive Marijuana drug test results were below the DHHS/NRC initial screening level of 100 NG/ML. Our initial screening level for Marijuana is 50 NG/ML.

Two twenty-four hour reportable events were reported during this reporting period. First event: On July 10, 2000, a contractor temporary relieving supervisor tested positive for cocaine based on a random drug and alcohol test. Second event: On July 10, 2000, an FPL employee tested positive for alcohol on a random drug and alcohol test. The individual was believed to be a temporary relieving supervisor and was reported as such, but after further investigation it was determined that he was not and the reported event was retracted on July 19, 2000.

One preaccess urinalysis specimen was reported as positive for adulterants. The specimen was positive for nitrites. The individual was classified as a refusal and access was denied. The individual was a contractor
