)•The Commission was briefed by the staff on its program to upgrade•a  
nd simplify the technical specifications for nuclear power plants.•Th  
e Commission requested the staff to allocate the necessary•resources t  
o assure timely implementation of the technical•specifications improve  
ments programs•Chairman Zech requested a Commission paper on the sta  
ff's effort to•reduce testing and surveillance requirements during pow  
er•operations of a nuclear power plant. the plant should discuss the•t  
esting and surveillance which would no longer be required during•power  
operation.Á..... ÁÁ.` . Á(EDO)Á.....$ ÁÁ.h.h.* ÁÁ.À.  
À.0 Á(SECY Suspense:Á. . H Á10  
/17/88)•Chairman Zech emphasized the importance for timely implementa  
tion•of sensible technical specifications changes which delete•unneces  
sary testing and surveillance requirements during plant•operation. He  
emphasized the importance for experienced operational•personnel to par  
ticipate in the technical specification•improvements program•Commis  
sioner Rogers encouraged the staff to investigate internal•communion im  
provements at nuclear power plants. He suggested that•internal communi  
cations could be a major contributor to some of the•surveillance and t  
esting problems experienced at nuclear power•plants. He also requested  
the staff to keep emphasizing and•reemphasizing to the licensees and  
the public the significance of•this program to public health and safet  
y.Ô . ." . 0*0*0*.º.º.. Ô•Subsequent to the meeting, in res  
ponse to the staff's request to•delay development of a final policy st  
atement on technical•specifications, the Commission requested the foll  
owing:.Á.X..... Á1.Á.X.` . ÁStaff should  
obtain industry's commitment for•early transmittal of its standard tec  
hnical•specifications.Æx.` Ä..Á.X..... Á2.Á.X.` . ÁSta  
ff should provide industry a commitment to•conduct timely reviews.Æx.`  
Ä..Á.X..... Á3.Staff should develop and submit a final policy
