

February 27, 2001

Mr. Clayton Bradt, Principal Radiophysicist
Radiological Health Unit
Division of Safety and Health
New York State Department of Labor
NYS Office Campus, Bldg. 12, Room 169
Albany, NY 12240

Dear Mr. Bradt:

Thank you for your January 9, 2001 response on the VEECO Instruments, Inc. (VEECO) device.

In your response, you reference a January 9, 2001 letter to Don Flater. In that letter you note that Justech, Inc. (successor to VEECO) will be applying to the State of Ohio for a license including submission of a request for an SS&D review. You further indicate that during the transition period, VEECO will continue to provide support for devices distributed under its license.

We would appreciate your confirming that the VEECO Model HH-3 Probe, containing 147-Pm, has been evaluated and approved for distribution to persons covered under a general license with the new higher activity 900 microcurie source. We would also appreciate your confirming whether there are any conditions of use or limitations of use for this device identified on the VEECO distribution license.

To assist in providing appropriate information to NRC and Agreement State licensing programs nationwide, we believe the VEECO distribution license, or other documentation, should be added as an addendum to the current Sealed Source & Device Certificate for this device. To assist us in this effort, please provide an electronic copy of the current VEECO distribution license for this device.

We would appreciate receiving your response to this request by March 30, 2001.

Sincerely,

/RA/

Paul H. Lohaus, Director
Office of State and Tribal Programs

Mr. Clayton Bradt
